Platte County now accepts credit cards

Platte County Treasurer, Bonnie Brown, announces that the County now accepts credit cards for payment of permits, fees and some services. This includes Planning & Zoning, Parks, the Assessor, County Clerk, Public Works and Treasurer. Brown hopes to add other departments as they request.

This new service has been implemented by the Treasurer's office to make doing business with the county easier and faster. There will be no charge to the customer for this service. "It is my hope that adding this service makes the County more accessible to the citizens." says Brown. Accepting credit cards creates more satisfied customers, reduces bad checks, and improves operational efficiencies which benefit the County.

Payment of taxes to the Collector and electronic filings to the Recorder are not included in this new service. They are handled separately by those offices.

For more information, contact Bonnie Brown, Platte County Treasurer at 858-3318.
